

Safety Drain Tray

for ISD 83K–298K, IMD 95–280

Installation Instructions

Assembly

Not to Scale

GENERAL

The optional Safety Drain Tray has been designed to conveniently fit the following **temperzone** units:

Model	Drain Tray
ISD 83K:	Item No. 525 000 039
ISD 96/110 K:	Item No. 525 000 041
ISD 135/155 K:	Item No. 525 000 042
ISD 156K:	Item No. 525 000 048
ISD 200K:	Item No. 525 000 047
ISD 230K:	Item No. 525 000 048
ISD 270/298 K:	Item No. 525 000 045
IMD 95:	Item No. 325 000 068
IMD 135:	Item No. 325 000 070
IMD 170:	Item No. 325 000 072
IMD 210:	Item No. 325 000 073
IMD 280:	Item No. 325 000 076

COMPONENTS

Check that the following items are supplied and are in good order:

1. Safety drain tray
2. Mounting brackets (x4)
2. Mounting screws (x4)

INSTALLATION

The safety drain tray is best secured to the ISD unit **after** the unit has been suspended in the ceiling, however it is possible to fit it **before** if circumstances make this easier.

1. Unscrew the brackets from their temporary shipping position, inside the drain tray, and retain the screws.
2. The drain tray has pre-drilled holes designed to align with the screws on the unit. One at a time, remove a screw from each bottom corner of the ISD unit and fit a bracket using the same screws.
3. Position the drain tray's pipe exit so it is at the same end as the ISD unit's drain pipe exit (as per diagram left).
4. Supporting the drain tray from underneath, then secure the drain tray to each bracket using the supplied screws.
5. Connect the drain pipe to a suitable drain line with an appropriate slope to allow free drainage. Test the drain with water to ensure it clears safely.

DO NOT let the ISD/IMD unit's condensate drain exit into this safety drain tray.

MAINTENANCE

Check the safety drain tray every six months for free drainage.

This pamphlet replaces the previous issue no. 3295 dated 01/10.
ISD 155K replaces 160K; 156K added.
