

File Name: Air_Handling_Unit-Package-Temperzone-OPA_186_201RKTYGH_131119.01.rfa

2 Family Types: OPA 186, 201RKTYGH

Modified Issue: 131119.01

This read me document is provided for the purpose of parameter clarification. The temperzone product range is diverse and each group of units require unique parameters within their Revit Family to help define them. Parameters you may need help understanding are discussed below.

Mounting Points

Four Mounting points for this unit are located on the underside of the unit.

Connector Element Properties

Care has been taken to provide connector elements that are functional. Within this family you will find instance parameters, mapped to connectors, have been set to zero to allow for end user input. It is the end users responsibility to enter accurate data, for individual products, as required, into these fields. This data can be found within the Revit Family 'Type Properties', or within temperzone's technical data manuals and unit selection programmes. Visit www.temperzone.biz or contact your Temperzone representative to access this information.
